

CROWN™

THE POWER OF 1

AGM COMMERCIAL 31 BATTERIES

ADVANCED AMERICAN ENGINEERING. GLOBALLY PROVEN PERFORMANCE.

CRV31

The leading-edge sealed technology behind CROWN1™ Commercial AGM batteries make them ideal for heavy-duty trucks and off-road equipment that require more power, longer life and maintenance-free service. Crown combined the newest technology, best-practice manufacturing processes and a tough, tested and proven design to deliver the performance that equipment owners depend on the world over.

- ▶ Super-thick SolidCast™ plate construction, with more Active Material and premium Glass Mat Separator join to deliver superior CCA and cycling performance, longevity and protection against short circuiting
- ▶ Spill-proof, sealed and maintenance-free
- ▶ Massive internal top-lead connectors deliver lower IR, improved system efficiency and best-available vibration resistance for longer life

AGM SERIES – HEAVY DUTY COMMERCIAL SPECIFICATIONS

BCI Group		Inches	
Model Description	31	Length	13.00
Item Number	CRV31S	Width	6.77
	AGM31	Cover Height	8.44
Electrical Capacity		Terminal Height	9.50
CCA Rating	950	Millimeters	
20 Hr Rate	100	Length	330
RC Minutes	185	Width	172
Weight		Cover Height	214
Lbs	76.00	Terminal Height	241
Kgs	34.50
